

Welcome to Ford Care Services, Inc.

Ford Care Services, Inc. is a provider of care and support services for individuals with mental and developmental disabilities. It is our firm belief that all individuals have a right to be treated as full members of our society. Despite our differences and disabilities we may possess we are entitled to be treated with respect and should have an opportunity to live a happy and productive life.

Our services help individuals and their families to cope with the daily living challenges associated with developmental disabilities. We assist them in finding ways to manage health conditions and find suitable living and work environments where they can practice their independence for as long as possible. The key is to keep individuals out of institutionalized settings and to integrate them in the community where they can be part of the neighborhood, their home town and the community in general.

About Us

When **Ford Care Services, Inc.** was founded in 2005, it embodied the Mission and Vision that built its clientele and established a name that is associated with quality developmental disability care.

Mission Statement

Providing caring and friendly services to enhance each individual's independence and potential.

Vision Statement

Giving back to the community we serve by way of providing first-rate care and also allocating a portion of our earnings to improving the lives of the developmentally disabled individuals.

Ford Care Services, Inc. is a small agency. We limit our growth in order to provide individualized services to our consumers. Our main focus after all is to improve the lives of our consumers by providing assistance with day to day activities as well as exposing them to activities and experiences that will enrich their lives.

We strive to build and keep lasting relationships with our consumers and their families. We see to it that they are fully informed of all developments on a regular basis.
